#1 NEW YORK TIMES BESTSELLER • In *Sapiens*, he explored our past. In *Homo Deus*, he looked to our future. Now, one of the most innovative thinkers on the planet turns to the present to make sense of today's most pressing issues. "Fascinating . . . a crucial global conversation about how to take on the problems of the twenty-first century."—Bill Gates, *The New York Times Book Review* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY FINANCIAL TIMES AND PAMELA PAUL, KQED How do computers and robots change the meaning of being human? How do we deal with the epidemic of fake news? Are nations and religions still relevant? What should we teach our children? Yuval Noah Harari's *21 Lessons for the 21st Century* is a probing and visionary investigation into today's most urgent issues as we move into the uncharted territory of the future. As technology advances faster than our understanding of it, hacking becomes a tactic of war, and the world feels more polarized than ever, Harari addresses the challenge of navigating life in the face of constant and disorienting change and raises the important questions we need to ask ourselves in order to survive. In twenty-one accessible chapters that are both provocative and profound, Harari builds on the ideas explored in his previous books, untangling political, technological, social, and existential issues and offering advice on how to prepare for a very different future from the world we now live in: How can we retain freedom of choice when Big Data is watching us? What will the future workforce look like, and how should we ready ourselves for it? How should we deal with the threat of terrorism? Why is liberal democracy in crisis? Harari's unique ability to make sense of where we have come from and where we are going has captured the imaginations of millions of readers. Here he invites us to consider values, meaning, and personal engagement in a world full of

noise and uncertainty. When we are deluged with irrelevant information, clarity is power. Presenting complex contemporary challenges clearly and accessibly, *21 Lessons for the 21st Century* is essential reading. "If there were such a thing as a required instruction manual for politicians and thought leaders, Israeli historian Yuval Noah Harari's *21 Lessons for the 21st Century* would deserve serious consideration. In this collection of provocative essays, Harari . . . tackles a daunting array of issues, endeavoring to answer a persistent question: 'What is happening in the world today, and what is the deep meaning of these events?'"—BookPage (top pick) *Verbum Obelisco*

Iberian Peninsular Crime Fiction is the first volume in English to provide an extensive overview of crime fiction in Spain and Portugal. While the origins of peninsular crime fiction are traced in Nancy Vosburg's introductory chapter to the volume, the essays focus on specific topics that provide readers with a sense of the development of the genre in the second half of the 20th-century and current trends in the 21st-century. Patty Hart, whose *The Spanish Sleuth* introduced English-speaking readers to early crime fiction in Spain, provides a summary account of the development of the crime novel from the 1950s through the 1980s, highlighting the major authors and works that set the stage for the boom that followed the establishment of the *novela negra* tradition in the 1970s. This tradition, spearheaded by Manuel Vázquez Montalbán, is the subject of a separate essay by Maria Balibrea that analyzes the socio-political conditions that gave rise to the *novela negra*. Nancy Vosburg studies the emergence of a feminine/feminist crime novel in the 1980s and 1990s and the subversion of masculine codes associated with crime fiction, while Stewart King analyzes crime fiction from the Catalan, Basque, and Galician autonomous regions of Spain, focusing on the political realities that resulted in a different use of the genre as a vehicle of regional nationalism. David Knutson traces contemporary trends in Spanish crime

fiction, beginning in the 1990s and up to the present. Paul Castro's essay documents the emergence of crime fiction in Portugal and the major works/authors through to the present.

An inventive, page-turning crime thriller with "palpable emotional depth" (*New York Times Book Review*) in which the Red Scare never ended. USA, 1958. President Joseph McCarthy sits in the White House, elected on a wave of populist xenophobia and barely-concealed anti-Semitism. The country is in the firm grip of McCarthy's Hueys, a secret police force evolved from the House Un-American Activities Committee. Hollywood's sparkling vision of the American dream has been suppressed; its remaining talents forced to turn out endless anti-communist propaganda. LAPD detective Morris Baker—a Holocaust survivor who drowns his fractured memories of the unspeakable in schnapps and work—is called to the scene of a horrific double-homicide. The victims are John Huston, a once-promising but now forgotten film director, and an up-and-coming young journalist named Walter Cronkite. Clutched in the hand of one of the dead men is a cryptic note containing the phrase "beat the devils" followed by a single name: Baker. Did the two men die in an attack fueled by better-dead-than-red sentiment, as the Hueys are quick to conclude, or were they murdered in a cover-up designed to protect—or even set in motion—a secret plot connected to Baker's past? In a country where terror grows stronger by the day, and paranoia rises unchecked, Baker is determined to find justice for two men who raised their voices in a time when free speech comes at the ultimate cost. In the course of his investigation, Baker stumbles into a

conspiracy that reaches deep into the halls of power and uncovers a secret that could destroy the City of Angels—and the American ideal itself.

Twentieth-century authors and filmmakers have created a pantheon of mavericks -- some macho, others angst-ridden -- who often cross a metaphorical boundary among the literal ones of Anglo, Native American, and Hispanic cultures. Douglas Canfield examines the concept of borders, defining them as the space between states and cultures and ideologies, and focuses on these border crossings as a key feature of novels and films about the region. Canfield begins in the Old Southwest of Faulkner's Mississippi, addressing the problem of slavery; travels west to North Texas and the infamous Gainesville Hanging of Unionists during the Civil War; and then follows scalpers into the Southwest Borderlands. He then turns to the area of the Gadsden Purchase, known for its outlaws and Indian wars, before heading south of the border for the Yaqui persecution and the Mexican Revolution. Alongside such well-known works as *Go Down Moses*, *The Wild Bunch*, *Broken Arrow*, *Gringo Viejo*, and *Blood Meridian*, Canfield discusses novels and films that tell equally compelling stories of the region. Protagonists face various identity crises as they attempt border crossings into other cultures or mindsets -- some complete successful crossings, some go native, and some fail. He analyzes figures such as Geronimo, Doc Holliday, and Billy the Kid alongside less familiar mavericks as they struggle for identity, purpose, and justice.

This is an unnerving portrait of women caught in a web of shifting relationships within an upper-class family in the years following the Meiji Restoration. The beautiful, immature girl whom she took home to her husband was a maid only in name. Tomo's real mission had been to find him a mistress. Nor did her secret humiliation end there. The web that his insatiable lust spun about him soon trapped another young woman, and another ... and the relationships between the women thus caught were to form, over the years, a subtle, shifting pattern in which they all played a part.

The groundbreaking bestseller that redefines intelligence and success Does IQ define our destiny? Daniel Goleman argues that our view of human intelligence is far too narrow, and that our emotions play major role in thought, decision

making and individual success. Self-awareness, impulse control, persistence, motivation, empathy and social deftness are all qualities that mark people who excel: whose relationships flourish, who are stars in the workplace. With new insights into the brain architecture underlying emotion and rationality, Goleman shows precisely how emotional intelligence can be nurtured and strengthened in all of us.

"In this timeless and deeply learned classic, poet and translator Robert Bly offers nothing less than a new vision of what it means to be a man. Bly's vision is based on his ongoing work with men, as well as on reflections on his own life. He addresses the devastating effects of remote fathers and mourns the disappearance of male initiation rites in our culture. Finding rich meaning in ancient stories and legends, Bly uses the Grimm fairy tale "Iron John"--In which a mentor or "Wild Man" guides a young man through eight stages of male growth-to remind us of ways of knowing long forgotten, images of deep and vigorous masculinity centered in feeling and protective of the young. At once down-to-earth and elevated, combining the grandeur of myth with the practical and often painful lessons of our own histories, Iron John is an astonishing work that will continue to guide and inspire men-and women-for years to come"--

Here is a true literary event--the long-awaited new novel by Carlos Fuentes, one of the world's great writers. By turns a tragedy and a farce, an acidic black comedy and an indictment of modern politics, *The Eagle's Throne* is a seriously entertaining and perceptive story of international intrigue, sexual deception, naked ambition, and treacherous betrayal. In the near future, at a meeting of the United Nations Security Council, Mexico's idealistic president has dared to vote against the U.S. occupation of Colombia and Washington's refusal to pay OPEC prices for oil. Retaliation is swift. Concocting a "glitch" in a Florida satellite, America's president cuts Mexico's communications systems--no phones, faxes, or e-mails--and plunges the country into an administrative nightmare of

colossal proportions. Now, despite the motto that “a Mexican politician never puts anything in writing,” people have no choice but to communicate through letters, which Fuentes crafts with a keen understanding of man’s motives and desires. As the blizzard of activity grows more and more complex, political adversaries come out to prey. The ineffectual president, his scheming cabinet secretary, a thuggish and ruthless police chief, and an unscrupulous, sensual kingmaker are just a few of the fascinating characters maneuvering and jockeying for position to achieve the power they all so desperately crave.

storyteller. Eva Luna is the daughter of a professor's assistant and a snake-bitten gardener – born poor, orphaned at an early age and working as a servant. Eva is a naturally gifted and imaginative storyteller who meets people from all walks of life. Though she has no wealth, she trades her stories like currency with people who are kind to her. As she shares her stories, she introduces an eccentric cast of characters: the Lebanese émigré who takes her in, her Catholic godmother who believes in saints, a street urchin who grows up to be the leader of the guerrilla struggle, a celebrated trans cabaret star and a young refugee whose flight from postwar Europe will change Eva's life forever. As Eva tells her story, Isabel Allende brings to life a complex South American country – the rich, the poor, the sophisticated – in a novel that celebrates the power of imagination and storytelling. Praise for Isabel Allende's Eva Luna: 'Vibrant, colourful characters; the ordinary fused with the grotesque; a Latin American setting, tropical this time; vivid, elegant narrative. Byzantium National Geographic Books

A debut collection of short fiction from this National Magazine Award in Fiction finalist. Set in a variety of Southern and Midwestern landscapes — from Missouri's Ha Ha Tonka State Park to a crop circle at a Minnesotan farm — the stories in 'Between Here and the Yellow Sea' excavate the ambiguous terrain of the human heart. With a forceful and compassionate voice, Pizzolatto finds beauty in loneliness as his characters attempt to bridge the gulfs between themselves and others, past and present, and, sometimes, between their inner and outer selves. In this both heartbreaking and humorous collection, we meet a base-jumping, samurai park ranger who parachutes off the St. Louis Arch; a stained glass artist who struggles over his masterpiece and learns through great loss what his true subject will be; and a religious elementary school teacher who tries to understand her rebellious, militant son. In the title story, which first appeared in the *Atlantic Monthly*, an orphaned young man and his former high school football coach set out to kidnap the coach's daughter from Los Angeles and bring her back to east Texas. With an assured, poignant voice, Pizzolatto places us at the crossroads of memory and desire, somewhere between here and the Yellow Sea.
