The Thirty Days' War Canelo

Martin Falconer had one big anxiety: would they let him fly again? Grounded in England at the beginning of 1918, it was a struggle, for escaped prisoners of war weren't generally allowed to return to the front, but Martin pestered the authorities and, at last, found himself back in France. But the character of the war was changing. Everyone had suddenly become efficiency-conscious, and the freedom of choice which he had valued so much in his life as a pilot was disappearing. Martin had to settle down to the grim, monotonous business that aerial warfare had now become. It was work that took a terrible toll on the nerves, even of someone as young and strong as he was. He longed to be able to solve the problem, and for the war to be over, so that he could start to find out what he really wanted from life. A gripping story, totally convincing in its portrayal of the ordeals and rewards of flying in the First World War, for fans of Alexander Fullerton and W. E. Johns.

The Fledglings Canelo

The fighting has long since ended. But the conflict is far from over... Twenty years after the Second World War, five tough veterans return to the Sahara in a desperate search for bomb-buried bullion. But twenty years can change a man.

One day in 1914, a young man took to the air, and a legend was born... He would hone his skills in an array of aircraft – the BE2, the 11/2-Strutter, the Camel – and as the war reaches its climax, Dicken is maturing into a daring pilot. But then he must undergo one final test in order to emerge victorious. And with his life intact... The Bright Blue Sky is a love letter to aviation, a brilliant read, perfect for fans of Thomas Wood, Wilbur Smith, and Mark Sullivan.

The Challenging Heights Canelo

To swing the tide of the war, he must take to the air once again. It was 1916. The First World War had still two years to run. Martin Falconer, at eighteen an experienced pilot with service in France to his credit, was kicking his heels in England, awaiting another posting to the Front. Throughout the spring he watched the progress of the war, especially the war in the air, acknowledging to himself the German's superiority. Their machines were better, and they had produced the war's best-known hero of the air, the Red Baron. British machines were poor, morale was low, and the odds were stacked against them. Finally, at the beginning of April, Martin was sent again to France - but this was the month that became known as Bloody April, when a pilot's life-expectancy was two weeks, and Martin found himself in a unit demoralised and ill-managed. John Harris's sombre picture of Britain at war is as compelling as only the truth can be, perfect for fans of W. E. Johns, Alexander Fullerton and David Black.

The Lion at Sea House of Stratus

The fate of a continent rests on one devastating battle... The Eighth Army, gathering its strength in the Nile delta, was preparing for a major assault against the combined forces of Rommel's Afrika Korps. One of the places the Korps occupied was the little port of Qaba, two hundred miles to the west of Cairo. British Lieutenant-Colonel George Hockold saw great potential in Qaba, planning an

offensive there to both distract the enemy and rob them of essential fuel supplies. This was the start of what came to be known as 'Operation Cut-Price', carried out by perhaps the oddest assortment of makeshift commandos ever brought together. Their objective was quite simple: to take... or destroy. An intensely exciting war thriller observed with shrewdness, humour and compassion, perfect for fans of Alistair MacLean, Jack Higgins and David McDine.

The Old Trade of Killing Canelo

The First World War is over. But Martin Falconer's story is only just beginning. 1919. Martin Falconer, a veteran airman while still in his teens and now adjusting to peacetime, is asked to go to Russia to fight the Bolsheviks. His answer? 'Try and stop me.' The Great War had taken away much of Martin's idealism, shown him the gruesome realities of battle. But the Russia of 1919, a chaotic, desperate country, shows him another sort of conflict, a civil war of great savagery and bitterness on both sides. Nothing is as simple as he had thought. But the danger and excitement as he flies over the Russian steppes will only further his extraordinary legacy. The continuation of the completely gripping WWI aviation thrillers, for fans of W. E. Johns, Alastair MacLean and Alan Evans.

Ride Out the Storm Canelo

There is talk of peace across Europe as the First World War draws to its bloody conclusion and the German naval fleet limps into Scapa Flow for a humiliating surrender. But for Lieutenant Kelly Maguire, new conflicts arise in Russia, the Mediterranean and the Far East. Maguire faces brutal choices and violent action.

The Iron Stallions Canelo

One last mission, but this time it's personal... In the Spring of 1920 the Mexican revolution was almost over. Just across the border in Texas was Martin Falconer, barely out of his teens yet already a veteran airman. He had only just escaped from the Russian Civil War with his three friends, Slingsby, 'Puddy' Pudhovkin and 'Tommy' Tucker, and they were all looking forward to a little peace. Martin had cabled his girlfriend Charley, who was in Mexico with her father, to

come and meet him. But his hopes are shattered when they arrive in the border town of Camarillo to collect Charley, and the four airmen are caught in the middle of a battle. When the dust settles, they discover that the retreating Mexican bandits had taken Charley as a hostage. Martin tries to enlist official aid, but without success. It was up to them - and all they had to use against a desperate band of rebels were two battered aeroplanes, a broken down Avro and a de Havilland with broken wings. This will be his most challenging flight. The absolutely thrilling finale to the Martin Falconer thrillers, a tour de force of wartime storytelling, perfect for fans of Alastair MacLean, Alexander Fullerton and David Black.

The Dangerous Years House of Stratus

Throughout the summer of 1944, southern England was transformed into one huge armed camp as the allied forces made their final preparations for D-Day. His very existence was not suspected until a totally unexpected E-Boat attack on a landing resulting in hundreds of casualties, and the loss of a set of top-secret plans detailing the invasion. Desperate to stop them falling into enemy hands, two officers are tasked with recovering the plans and taking out the Fox. Failure would mean the total defeat of the allied forces.
