When Alexander the Great died in 323 BC without a chosen successor he left behind a huge empire and ushered in a turbulent period, as his generals fought for control of vast territories. The time of the Successors (Diadochi) is usually defined as beginning in 323 BC and ending with the deaths of the last two Successors in 281 BC. This is a major publication devoted to the Successors and contains eighteen papers reflecting current research. Several papers attempt to unravel the source history of the very limited remaining narrative accounts, and add additional materials through cuneiform and Byzantine texts. Specific historical issues addressed include the role of so-called royal flatterers and whether or not Alexander's old guard did continue to serve into their sixties and seventies. Three papers reflect the recent conscious effort by many to break away from the Hellenocentric view of the predominantly Greek sources, by examining the role of the conquered, specifically the prominent roles played by Iranians in the administration and military of Alexander and his Successors, pockets of Iranian resistance which eventually blossomed into Hellenistic kingdoms ruled by sovereigns proclaiming their direct connection to an Iranian past and a continuation of Iranian influence through an examination of the roles played by certain of the Diadochis Iranian wives. The papers in the final section analyse the use of varying forms of propaganda. These include the use of the concept of Freedom of the Greeks as a means of manipulating opinion in the Greek world; how Ptolemy used a snake cult associated with the foundation of Alexandria in Egypt to link his kingship with that of Alexander; and the employment of elephant images to advertise the authority of particular rulers.

The Greek Experience of India BRILL

An exploration of how the Greeks reacted to and interacted with India from the third to first centuries BCE. When the Greeks and Macedonians in Alexander's army reached India in 326 BCE, they entered a new and strange world. They knew a few legends and travelers' tales, but their categories of thought were inadequate to encompass what they witnessed. The plants were unrecognizable, their properties unknown. The customs of the people were various and puzzling. While Alexander's conquest was brief, ending with his death in 323 BCE, the Greeks would settle in the Indian region for the next two centuries, forging an era of productive interactions between the two cultures. The Greek Experience of India explores the various ways that the Greeks reacted to and constructed life in India during this fruitful period. From observations about botany and mythology to social customs, Richard Stoneman examines the surviving evidence of those who traveled to India. Most particularly, he offers a full and valuable look at Megasthenes, ambassador of the Seleucid king Seleucus to Chandragupta Maurya, and provides a detailed discussion of Megasthenes's now-fragmentary book *Indica*. Stoneman considers the art, literature, and philosophy of the Indo-Greek kingdom and how cultural influences crossed in both directions, with the Greeks introducing their writing, coinage, and sculptural and architectural forms, while Greek craftsmen learned to work with new materials such as ivory and stucco and to probe the ideas of Buddhists and other ascetics.

Tableau Historique Et Pittoresque de Paris

These thirteen papers, from a colloquium held at the Netherlands Institute at Athens in 2000, examine European scholarship's fascination with classical Greece during the 19th and 20th centuries. Arranged geographically and then thematically, the papers discuss Greek attitudes towards classical archaeology and literature, Germany and Neoclassicism, classical Greece in Dutch literature and the influence of Greece on Dutch politics, the influence of Alexander the Great and the Persian Wars, the classical element in Victorian verse and interpretations of Homeric epic. One paper is in French, the rest are in English.

Philological and Historical Commentary on Ammianus Marcellinus XXVI BRILL

The Persian Mirror explores France's preoccupation with Persia in the seventeenth century. Long before Montesquieu's Persian Letters, French intellectuals, diplomats and even ordinary Parisians were fascinated by Persia and eagerly consumed travel accounts, fairy tales, and the spectacle of the Persian ambassador's visit to Paris and Versailles in 1715. Using diplomatic sources, fiction and printed and painted images, The Persian Mirror describes how the French came to see themselves in Safavid Persia. In doing so, it revises our notions of orientalism and the exotic and suggests that early modern Europeans had more nuanced responses to Asia than previously imagined.

This outstanding introductory survey collects, presents and examines, for the very first time, the portraits and representations of Alexander the Great on the ancient coins of the Greek and Roman period. From 320 BC to AD 400, Karsten Dahmen examines not only Alexander's own coinage and the posthumous coinages of his successors, but also the re-use of his image by rulers from the Greek world and the Roman empire, to late antiquity. Also including numismatic material that exceeds all previous published works, and well-illustrated, this historical survey brings Alexander and his legacy to life.

Numismatique d'Alexandre le grand.

Suivie d'un appendice contenant les monnaies de Philippe II et III. Routledge
Le Portrait d'Alexandre le Grand retrace l'histoire d'une fantastique chasse au trésor. De l'Europe au Japon, en passant par les rives de l'Indus, les auteurs sont partis à la recherche du trésor de Mir Zakah, exhumé par des villageois en

Afghanistan. A l'été 1992 surgissent d'une source quatre tonnes de monnaies d'or, d'argent et de bronze, des kyrielles de bijoux, de parures, de plaques votives, de pierreries, frappées ou ciselées, datant de l'âge d'or de l'empire achéménide, au Ve siècle avant notre ère, jusqu'au déclin de l'empire kouchan. Chefs de guerre, brigands et trafiquants accaparent ce trésor national et le vendent aux enchères à des collectionneurs multimilliardaires. Quand en 2004 apparaît à Londres, entre les mains d'un homme venu de Peshawar, au Pakistan, une médaille d'or frappée à l'effigie d'Alexandre le Grand, Osmund Bopearachchi réalise l'importance historique de cette pièce exceptionnelle, sans doute le seul portrait du conquérant réalisé de son vivant. En 326 avant notre ère, après avoir conquis l'empire perse, Alexandre franchit l'Indus et vainc la cavalerie des éléphants du roi Porus. C'est le début d'une domination grecque qui durera quatre siècles en Asie Centrale et en Inde. Sur cette médaille de victoire, Alexandre coiffé du scalp de l'éléphant paraît à l'égal de Zeus. Il en offre de rares spécimens à ses généraux. Inconnu du commun des mortels, ce grand cadeau est sorti de l'oubli afin que puisse être écrite l'une des pages les plus glorieuses de l'histoire du monde.

Alexander's defeat of the Persian Empire in 331 BC captured the popular imagination, inspiring an endless series of stories and representations that emerged shortly after his death and continues today. An art historian and archaeologist, Boardman draws on his deep knowledge of Alexander and the ancient world to reflect on the most interesting and emblematic depictions of this towering historical figure. Some of the stories in this book relate to historical events associated with Alexander's military career and some to the fantasy that has been woven around him, and Boardman relates each with his customary verve and erudition. From Alexander's biographers in ancient Greece to the illustrated Alexander "Romances" of the Middle Ages to operas, films, and even modern cartoons, this generously illustrated volume takes readers on a fascinating cultural journey as it delivers a perfect pairing of subject and author.

A History of French Painting from Its Earliest to Its Latest Practice

This book brings together specialists of diverse ancient Mediterranean culture working on the formation of a "Moses mythology", from a comparative perspective, between Judea, Greece, Egypt and Rome. The concrete outcome of this comparative inquiry is the common translation and commentary of the fragments of the mysterious Artapanus. Ce volume rassemble des spécialistes de différentes cultures du monde méditerranéen ancien autour de la formation d'une "mythologie de Moïse", entre la Judée, la Grèce, l'Égypte et Rome. Le résultat pratique de cette enquête comparatiste débouche sur la traduction et le commentaire des fragments du mystérieux Artapan.
