Handbook of Sex Trafficking

Oxford University Press
A powerful and inspiring memoir of a young Yazidi who served as a U.S. combat interpreter but was later forced to flee into the mountains of Iraq to avoid the ISIS slaughter of his people Shaker Jeffrey's life has been an odyssey of courage, cunning, and desperation. His journey began as a fatherless Iraqi farm boy.

As a child he hung out with American troops and practiced his English. Soon he was helping gather information about terrorists, becoming one of the youngest combat interpreters to work for the United States government, even attracting the notice of General Petraeus. When he was barely sixteen, ISIS overran his Yazidi community and slaughtered most of its people. He narrowly escaped to the mountains with the remnants of his community. But with incredible daring, he became a valuable go-between, informing the U.S. military of the plight of the trapped Yazidis. Time and again he risked his life, going into enemy territory disguised as an ISIS fighter to mount daring rescue operations.

Shaker saved over 1,000 civilians from ISIS, including hundreds of girls forced into sex slavery, although he was unable to save his own fiancée from a terrible fate. Shaker's powerful and inspiring narrative offers a human face to the people and places caught in the crosshairs of a borderless conflict that has come to define our age.

Volume 2 of Christianity and Freedom illuminates how Christian minorities and transnational Christian networks contribute to the freedom and flourishing of societies across the globe, even amidst pressure and violent persecution. Featuring unprecedented field research by some of the world's most distinguished scholars, it documents the outsized role of Christians in promoting human rights and religious freedom; fighting injustice; stimulating economic equality; providing education, social services, and health care; and nurturing democratic civil society. Readers will come away surprised and sobered to learn how this very Christian link to freedom often invites persecution. What are the

dimensions of persecution and how are Christians responding to that pressure? What resources - theological, social, or transnational - do they marshal in leavening their societies? What will be lost if the Christian presence is marginalized? The answers to these questions are of crucial relevance in a world awash with religious extremism and deepening instability.

The new edition of this market-leading textbook includes a revised introduction and updated chapters with new research and insights. Four new case studies of twenty-first-century genocides bring this horrific history up to the present moment: the genocide perpetrated by the government during Argentina's "Dirty War," the genocide of the Yazidis by the Islamic State of Iraq and Syria (ISIS), genocidal violence against the Rohingya in Myanmar, and China's genocide of the Uyghurs. Powerful survivor testimonies bring the essays to life and help readers grapple with the difficult lessons presented throughout the book.

The religious minorities of Iraq suffered immense violence at the hands of ISIS and they are now trying to rebuild their lives. In their own words, this book tells their stories of resilience against oppression, creativity in the darkest moments, and hope amidst death. Covering the experiences of the Christians, Kakais, Yazidis, Sunni Muslims and Shabaks, among others, this is an in-depth investigation that reveals how the different communities narrate their beliefs and deal with life and recovery in the aftermath of ISIS. Existing literature on the religious minorities in Iraq treats them in isolation as if they do not interact. This is the first book to show that a strong network between them operates in the absence of a strong civil society and based on a common desire to coexist, reconstruct their society and build peace. Over three years, the author visited religious and archaeological sites and interviewed more than one hundred people between representatives of the religious communities, academics, activists, politicians, policy makers and refugees. Among them

are victims and persecutors, men, women and children, all who have been overwhelmed by the tragic events of the last few years. The author shows that all these groups are animated by the same desire for a new, more tolerant society and that their treatment of each other is nurtured by their shared experience of persecution and oppression.

ISIS's genocidal attack on the Yezidi population in northern Iraq in 2014 brought the world's attention to the small faith that numbers less than one million worldwide. That summer ISIS massacred Yezidi men and enslaved women and children. More than one hundred thousand Yezidis were besieged on Sinjar Mountain. The US began airstrikes to roll back ISIS, citing a duty to save the Yezidis, but the genocide is still ongoing. The headlines have moved on but thousands of Yezidi women and children remain in captivity, and many more are still displaced. Sinjar is now free from ISIS but the Yezidi homeland is at the centre of growing tensions amongst the

city's liberators, making returning home for the Yezidis almost impossible. The mass abduction of Yezidi women and children is here conveyed with extraordinary intensity in the first-hand reporting of a young journalist who has been based in Iraqi Kurdistan for the past four years, covering the war with ISIS and its impact on the people of the country. Otten tells the story of the ISIS attacks, the mass enslavements of Yezidi women and the fallout from the disaster. She challenges common perceptions of Yezidi female victimhood by focusing on stories of resistance passed down by generations. Yezidi women describe how, in the recent conflict, they followed the tradition of their ancestors who, a century ago during persecutions at the fall of the Ottoman empire, put ash on their faces to make themselves unattractive and try to avoid being raped. Today, over 3,000 Yezidi women and girls remain in the Caliphate where they are bought and sold, and passed between fighters as chattel. But many others have escaped or been released. Otten bases her book on

interviews with these survivors, as well as those who smuggled them to safety, painstakingly piecing together their accounts of enslavement. Their deeply moving personal narratives bring alive a human tragedy. *Cultural Heritage and Mass Atrocities* Lulu.com How can emerging technologies display, reveal and negotiate difficult, dissonant, negative or undesirable heritage? Emerging technologies in museums have the potential to reveal unheard or silenced stories, challenge preconceptions, encourage emotional responses, introduce the unexpected, and overall provide alternative experiences. By examining varied theoretical approaches and case studies, authors demonstrate how "awkward", contested, and rarely discussed subjects and stories are treated - or can be potentially treated - in a museum setting with the use of the latest technology.

Equipping pastors to address racism faithfully from the pulpit. Of all the activities that come with

being a minister, sermon preparation can loom largest - especially when racism is the subject. You've got to address racism with your white congregation from the pulpit. But, truthfully, you can't wrap your head around how to preach about this topic thoughtfully and sensitively. In *Preaching about Racism*, preaching professor and pastor Carolyn Helsel speaks directly to other faith leaders about how to address racism from the pulpit. In her first book, *Anxious to Talk about It: Helping White Christians Talk Faithfully about Racism*, Helsel addressed the anxiety white Christians experience around conversations about race. In this follow-up, Helsel provides strategies and a theoretical framework for crafting biblical and theological sermons that incorporate insights from social sciences and psychology, gleaned from more than a decade of writing and teaching about racism. Written for the busy pastor, several chapters are quick reads - helpful reminders as you prepare a thoughtful and sensitive sermon - while others dig deeper on the theory behind the crucial

work of dismantling racism.

The true story of a beekeeper who risks his life to rescue enslaved women from Daesh Since 2014, Daesh (ISIS) has been brutalizing the Yazidi people of northern Iraq: sowing destruction, killing those who won't convert to Islam, and enslaving young girls and women. *The Beekeeper*, by the acclaimed poet and journalist Dunya Mikhail, tells the harrowing stories of several women who managed to escape the clutches of Daesh. Mikhail extensively interviews these women—who've lost their families and loved ones, who've been sexually abused, psychologically tortured, and forced to manufacture chemical

weapons—and as their tales unfold, an unlikely hero emerges: a beekeeper, who uses his knowledge of the local terrain, along with a wide network of transporters, helpers, and former cigarette smugglers, to bring these women, one by one, through the war-torn landscapes of Iraq, Syria, and Turkey, back into safety. In the face of inhuman suffering, this powerful work of nonfiction offers a counterpoint to Daesh's genocidal extremism: hope, as ordinary people risk their own lives to save those of others. *Promoting Religious Freedom in an Age of Intolerance* OR Books
On August 3rd, 2014, the Islamic State attacked the Kurdish region of northern Iraq, sweeping down into Iraq's Nineveh province. Islamic State struck the ancient Yazidi people, citizens of Iraq who had lived in the country's north for centuries. Within minutes, more than 150,000 members of this pre-Abrahamic faith fled their homes. Fifty thousand sought refuge on the nearby holy Mount Sinjar, a dry, desolate, treeless mountain, where they were stranded, surrounded by the militant jihadists, without

food or water in temperatures over 110 degrees. What convinced the Obama Administration and the U.S. military to go back into the quagmire of Iraq after leaving it three years earlier in a hasty pull-out? How did this obscure ethnic group seize headlines and hold the world's attention? How did a small sub-office of the U.S. State Department emerge as a source of crucial intelligence, eclipsing the CIA and the NSA? How were new Yazidi immigrants working from a Super 8 motel in Maryland able to help defeat the warriors of Islamic State on the battlefield? This is the extraordinary tale of how a few American-Yazidis in Washington, DC, mobilized a small, forgotten office in the American government to intervene militarily in Iraq to avert a devastating humanitarian crisis. While Islamic State massacred many thousands of Yazidi men and sold thousands more Yazidi women into slavery, the U.S. intervention saved the lives of 50,000 Yazidis. Yezidism is a minority religion that is largely based on tradition rather

than scripture. In the homelands - Turkey, Iraq, Syria and Transcaucasia - its world-view is closely connected with local culture, and most easily understood in that context. From the 1960s onwards, an increasing number of Yezidis from Turkey, Iraq and Syria were forced to migrate to Western Europe. After the fall of the Soviet Union many Yezidis from Armenia and Georgia moved to Russia and the Ukraine. This work addresses the question of differences in perception of the religion between Yezidi migrants who grew up in the homeland and those who were mainly socialised in the Diaspora. It is based on extensive qualitative research among Yezidis of different generations in Germany and Russia.

Argues that charges of a deliberate Soviet policy of genocide by famine directed against the Ukrainian nation in the early 1930s are based on inflated figures and fabricated evidence. This campaign was initiated by extreme right-wing forces in the USA and Nazi propagandists, and has continued since the 1950s

by Ukrainian emigre organizations. Some writers have accused the Jews and "Stalin's Jewish government" of deliberately causing the famine. Ch. 9 (pp. 102-119), "Collaboration and Collusion," discusses Ukrainian nationalist involvement in pogroms and assistance to the Germans during the Holocaust, particularly the faction led by Stepan Bandera and the Ukrainian Insurgent Army. also describes how ex-members of these groups and of Ukrainian Waffen-SS units were enabled to enter the USA and Canada after the war.

 WINNER OF THE NOBEL PEACE PRIZE • In this "courageous" (The Washington Post) memoir of survival, a former captive of the Islamic State tells her harrowing and ultimately inspiring story. Nadia Murad was born and raised in Kocho, a small village of farmers and shepherds in northern Iraq. A member of the Yazidi community, she and her brothers and sisters lived a quiet life. Nadia had dreams of becoming a history teacher or opening her own beauty salon. On August 15th, 2014, when Nadia was just twenty-one years old, this life ended. Islamic State militants massacred the people of her village, executing men who refused to convert to Islam and women too old to become sex slaves. Six of Nadia's brothers were killed, and her mother soon after, their bodies swept into mass graves. Nadia was

taken to Mosul and forced, along with thousands of other Yazidi girls, into the ISIS slave trade. Nadia would be held captive by several militants and repeatedly raped and beaten. Finally, she managed a narrow escape through the streets of Mosul, finding shelter in the home of a Sunni Muslim family whose eldest son risked his life to smuggle her to safety. Today, Nadia's story—as a witness to the Islamic State's brutality, a survivor of rape, a refugee, a Yazidi—has forced the world to pay attention to an ongoing genocide. It is a call to action, a testament to the human will to survive, and a love letter to a lost country, a fragile community, and a family torn apart by war.

 From Christina Lamb, the coauthor of the bestselling *I Am Malala* and an award-winning journalist—an essential, groundbreaking examination of how women experience war. In *Our Bodies, Their Battlefields*, longtime intrepid war correspondent Christina Lamb makes us witness to the lives of women in wartime. An award-winning war

correspondent for twenty-five years (she's never had a female editor) Lamb reports two wars—the “bang-bang” war and the story of how the people behind the lines live and survive. At the same time, since men usually act as the fighters, women are rarely interviewed about their experience of wartime, other than as grieving widows and mothers, though their experience is markedly different from that of the men involved in battle. Lamb chronicles extraordinary tragedy and challenges in the lives of women in wartime. And none is more devastating than the increase of the use of rape as a weapon of war. Visiting warzones including the Congo, Rwanda, Nigeria, Bosnia, and Iraq, and spending time with the Rohingya fleeing Myanmar, she records the harrowing stories of survivors, from Yazidi girls kept as sex slaves by ISIS fighters and the beekeeper risking his life to rescue them; to the thousands of schoolgirls abducted across northern Nigeria by Boko Haram, to the Congolese gynecologist who stitches up more rape victims than anyone on earth. Told as a journey, and structured by country, *Our Bodies,*

Their Battlefields gives these women voice. We have made significant progress in international women's rights, but across the world women are victimized by wartime atrocities that are rarely recorded, much less punished. The first ever prosecution for war rape was in 1997 and there have been remarkably few convictions since, as if rape doesn't matter in the reckoning of war, only killing. Some courageous women in countries around the world are taking things in their own hands, hunting down the war criminals themselves, trying to trap them through Facebook. In this profoundly important book, Christina Lamb shines a light on some of the darkest parts of the human experience—so that we might find a new way forward. *Our Bodies, Their Battlefields* is as inspiring and empowering as it is urgent, a clarion call for necessary change. *Christianity and Freedom: Volume 2, Contemporary Perspectives* Penguin

The so-called 'Nestorian' Church (officially known as the Apostolic Assyrian Church of the East, with its See in Baghdad) was one of the most significant Christian communities to develop

east of the Roman Empire. In its heyday the Church had 8 million adherents and stretched from the Mediterranean to China. Christoph Baumer is one of the very few Westerners to have visited many of the most important Assyrian sites and has written the only comprehensive history of the Church, which now fights for survival in its country of origin, Iraq, and is almost forgotten in the West. He narrates its rich and colorful trajectory, from its apostolic beginnings to the present day, and discusses the Church's theology, christology, and uniquely vigorous spirituality. He analyzes the Church's turbulent relationship with other Christian churches and its dialogue with neighboring world religions such as Zoroastrianism, Manichaeism, Islam, Buddhism, and Taoism. Richly illustrated with maps and over 150 full-color photographs, the book will be essential reading for those interested in a fascinating, but neglected Christian community which has profoundly shaped the history of civilization in both East and West.

Inner and Central Asia extends as far east as central China and as far west as areas in the Middle East. The changing empires over time (as well as the "shifting sands" of the geographic landmass) made it difficult to consider this as a single area. Moreover, the cultural exchanges which took place across this landmass, the transport of ideas as well as goods, and the "timelessness" as well as the contemporary relevance, all make the task even more difficult to categorize. A person can enter a bazaar, which is "centerless," from many directions and wander through, exiting from a totally different door. The plan is to enter the bazaar delineated in this resource guide through any of these gates: the early history of inner Asia; the Silk Road; the Mongol Empire; Islam; playing the Great Game; or in the

modern period. The resource guide begins with an introduction, maps, a time chart, a glossary, and the Teacher Guide (Teaching Methodology; Suggested Teaching Activities). It is then divided into the following broadly sketched sections: (1) "How Can One Imagine Inner Asia Geographically?" ("Landscape and Climate; Settlements and Dwellings"); (2) "How Did Movement across the Region Influence Multiple Cultural Interaction?" ("Migration: Explorations, Quests and Conquests"; "Trade and Material Exchange"; "Religion and Information Exchange"; "Culture and Customs"); (3) "How Did the Mongolian Conquest and Empire Influence Inner Asia History?" ("Mongolian Customs and Traditions"; "Mongols' Achievements and Heroes"); and (4) "How Does Inner Asia Fit into the Modern Content of Global Issues?"

("Politics and Nationhood"; "Society in Transition"; "Economy and Development"; "Environment)". Seven teacher background readings are included. (BT)

In their analysis, the editors and authors develop policy recommendations for the international and Iraqi political communities. It is essential reading for those interested in politics, international relations, post-war recovery, counter-terrorism, Middle Eastern studies and Iraqi studies scholars.
